## TK Tractor Kits

For Artic Tippers, 44 tonnes GCW

### Why choose HARSH TK?

In any maximum weight tipping application, HARSH TK tractor kits deliver outstanding performance and reliability. They have the ability to complete the tipping cycle with speed, efficiency and the maximum possible safety.

HARSH TK equipment is also easy to install. With components designed for minimal size and weight, they take up the least possible chassis space whilst still delivering a genuine heavy duty performance.

For 44 tonnes tractors, there's no better tipping solution.

power

### TK Features & Benefits

- Suitable for all the latest Euro 6 tractors
- Compact, space-saving designs
- Fully proven performance and reliability with engines of high power and torque
- Oil tanks for either chassis siderail or to rear of cab
- Light, high pressure bi-rotational piston pumps
- Top quality hoses and connections
- Easy to use, with precise controllability
- Integrated system with full Type Approval
- Suitable for use with tipping trailers, moving floors, ejectors and other bespoke applications

### TK Models

- To suit all current and recent tractor units
