### NEW ADAPTOR FOR NEW SCANIA TRANSMISSIONS – G25CM (R) AND G33CM (R)

NAME Adaptor Kit for NEW Scania Transmission

SKU – HYD-601K7280000 & HYD-601K7300000

### HARSH REVOLUTIONISES TRUCK PERFORMANCE WITH CUTTING EDGE ADAPTOR FOR NEW GENERATION SCANIA TRANSMISSIONS

HARSH, the leading provider of innovative solutions for heavy-duty trucks, proudly introduces its groundbreaking adaptor designed specifically for the new Scania transmissions. With an unwavering commitment to excellence, HARSH sets new standards in truck efficiency and productivity by seamlessly integrating its state-of-the-art adaptor into the Scania truck management system. Engineered to support PTOs in the 81 series, 82 series, 84 series, 86 series, and 87 series, this game-changing component unlocks unprecedented versatility for applications such as tippers, cranes, skip loaders, hookloaders, and aerial platforms.

#### Key Features and Benefits:

1. **Seamless Integration:** The HARSH adaptor seamlessly integrates into the truck management system, revolutionising the way vehicles operate. Through its flawless communication and coordination with auxiliary components, operators gain centralised control over all functions, ensuring efficient operations, enhanced reliability, and minimised downtime. This integration streamlines workflows, ultimately maximising productivity and profitability.
2. **Extensive Compatibility:** HARSH caters to diverse customer needs by offering two adaptor kits. The 601K7280000 kit is designed for Scania G25CM-R and G33CM-R transmissions with the retarder version, while the 601K7300000 kit is tailored for Scania G25CM and G33CM transmissions featuring the standard version.
3. **Unparalleled Performance:** The HARSH adaptor delivers unparalleled performance, unlocking the full potential of Scania transmissions. With its seamless power transmission and precise gear shifting, operators experience enhanced control, manoeuvrability, and productivity even in the most challenging operating conditions. This exceptional performance leads to reduced driver fatigue, improved safety, and increased operational efficiency, driving businesses towards greater success.
